PLANETLAB

Project Proposals

- You should have today:
  - What the teams are
  - What projects you're doing

- For next week:
  - Project proposal

- Discussion next week:
  - Assignment postmortem

PLANETLAB

Project Proposals

- Description of what system will do
  - Similar to description on web site

- Project timetable
  - Status at major checkpoints (course sched)
  - Intermediate milestones
  - Parallel subprojects (e.g. broken down by team member)

- Estimate of how much effort
  - This will be wildly inaccurate

PLANETLAB

Project Proposals, contd.

- How will you know it works?
    - How do you propose to test it?
    - How do you propose to demonstrate it?
    - What will you throw at it?

PLANETLAB

Next week (and thereafter)

- Group meetings (e.g. each two weeks)
  - Soda or Intel

- Team meetings (e.g. weekly)
  Definitely Intel

  Arrange times off-line by email

PLANETLAB

Questions?

- Any thoughts on how to approach this?

- If you have problems:
  - Send us email
  - Arrange to meet
  - Tell us how it's going

PLANETLAB
